

2nd-3rd Grade | Monday Chugim Class Descriptions

Hula Dancing (PAID ENRICHMENT)

Join us for a fun and energetic Hula Dance class, where kids will explore the beautiful culture of Hawai'i through movement and music. In this afterschool program students will learn traditional Hula steps, expressive hand gestures, and some Hawaiian language all while enjoying upbeat music. It's a great way to build coordination, confidence, and creativity in a supportive environment. No experience necessary - just bring your enthusiasm and a smile! This class is \$250 the entire session.

Going Ghibli

Step into the enchanting world of Studio Ghibli in this creative and imaginative class, where the magic of animation meets the world of art! In Going Ghibli, students will explore the beautiful and whimsical films, discovering the themes, characters, and stunning visuals. Through fun and hands-on art projects, kids will create their own masterpieces inspired by iconic scenes and characters from movies like My Neighbor Totoro, Howl's Moving Castle, Princess Mononoke, and Spirited Away. Through this project, they'll learn about the rich symbolism and artistry of Ghibli's world while honing their creative skills.

Paint and Juicebox

Let your child's creativity flow in this fun and colorful art class! Paint & Juice Box will explore the world of color, texture, and artistic expression through hands-on painting activities. Whether they're mixing vibrant hues, experimenting with unique textures, or creating their own masterpieces, this session is all about fostering imagination and building artistic confidence.

Let's go Sk8

In this skateboarding class, kids will learn the basics of how to push on a skateboard, riding, turning, and simple tricks paired with the terminologies of the sport! Kids will also learn how to finger-board against obstacles as well! Let's grab a helmet and ride out!

Regenerative Agriculture

Come join the regenerative agriculture course where students will learn how to grow food and maintain plants throughout the JCC campus. In this class, students will learn about plant and soil health. We will foliar feed, remineralize, inoculate, and fertilize plants as well as our own vertical indoor greenhouse. After all daily duties are completed, students will be provided with a healthy snack, or drink, with the opportunity to take plants home to eat! Hope to see you there! Keep on growing!

2nd-3rd Grade | Tuesday Chugim Class Descriptions

Sports Mash

Get ready for an exciting new class in the next Chugim session—Sports Mash! This fun, high-energy class is all about staying active, building healthy habits, and exercising while having a blast. Kids will engage in various activities that keep them moving the entire time, plus tips for healthy eating to fuel your body the right way. To top it off, at the end of each class, Sports Mash will treat them to a delicious and healthy snack, or drink, to recharge and replenish. It's the perfect combo of fitness and fun—don't miss out! Come join Sports Mash today.

Crafty Crusaders

Calling all young creators and future DIY heroes! In Crafty Crusaders, kids will embark on a fun-filled adventure of self-expression and imagination. From designing their own bracelets and funky banners to making gooey slime and custom t-shirts, this class is packed with awesome projects that let their creativity run wild! So, grab your creative cape, and let's get crafting—your masterpiece awaits!

Best Dance Crew

An absolute Club J favorite! Kids will learn a simple, fun, and energized choreography routine that will be performed live on stage at our quarterly showcase! It is an entertaining class that is guaranteed to make the kids laugh while boosting self-confidence!

2nd-3rd Grade | Thursday Chugim Class Descriptions

Mandarin

This is an introduction to Mandarin. We focus on simple conversations and writing Chinese characters while incorporating various games to encourage the fun of learning a new language! Kids will walk away with a new skill set and a boost in self-confidence!

Next step, SCIENCE!

This Chugim helps get your students ready for the worlds of science and engineering! From launching paper rockets to crafting slime that could outdo any alien, every session is a hands-on adventure where your kids play the mad scientists and genius engineers. Our topics are taken from the current NGSS (Next Generation Science Standards) and presented to your kids as games, experiments, and crafts. Safety goggles on, curiosity cranked up – we turn classrooms into a learning lab.

Eco Creations

In this class, kids will get their hands dirty tending to the Club J garden, learning about plants, soil, and what it takes to help nature thrive. They'll also tap into their creativity by crafting beautiful flower bouquets, painting their own flower pots, and selecting a plant to take home and nurture. While some projects are focused on gardening and outdoor activities, others are all about crafting, giving your child the chance to express their creativity in different ways. From learning the secrets to keeping a plant healthy to mastering the art of making their own plant pots, kids will leave with both green thumbs and a sense of accomplishment.
